## Trac detected an internal error:

```
com.sun.star.uno.Exception:
```

This is probably a local installation issue.

## Found a bug in Trac?

If you think this should work and you can reproduce the problem, you should consider reporting this to the Trac team.

Before you do that, though, **please first try [searching for similar issues](#)**, as it is quite likely that this problem has been reported before. For questions about installation and configuration of Trac, please try the [mailing list](#) instead of filing a ticket.

Otherwise, please a new ticket at the Trac project site, where you can describe the problem and explain how to reproduce it.
