

About Trac

Trac is a web-based software project management and bug/issue tracking system emphasizing ease of use and low ceremony. It provides an integrated Wiki, an interface to version control systems, and a number of convenient ways to stay on top of events and changes within a project.

Trac is distributed under the modified BSD License.

The complete text of the license can be found [online](#) as well as in the **COPYING** file included in the distribution.
